

**WORKING GROUP MEETING
THURSDAY
NOVEMBER 8, 2001**

**SWANSEA RECREATION CENTER
2659 EAST 49TH AVENUE
9:00 AM- 12:00 noon**

BACKGROUND & OBJECTIVES FOR THE MEETING:

Background :

Feasibility Study. EPA completed the Feasibility Study (FS) for Operable Unit 1 (residential soils) of VB/170 and will distribute the final document at this working group meeting.

The FS provides the basis for EPA's choice of a preferred clean up alternative to address the potential unacceptable risks. Now that the FS is complete, EPA will prepare a Proposed Plan for clean up. The plan will be widely distributed to the general public and a 60 day public comment period will be provided. EPA will accept comments on the Remedial Investigation, the Baseline Human Health Risk Assessment, the FS, and the Proposed Plan during the comment period.

Objectives:

EPA's objectives for this Working Group meeting are to provide a general overview of the FS and to introduce an approach to addressing environmental justice concerns at VB/170.

PROPOSED AGENDA ITEMS

- | | |
|--------------------------------------|-----------------------|
| 1. Community Issues | (9:00 - 10:00) |
